CORE STRENGTHS

Product vision & zero-to-one strategy

Roadmap influence & cross-functional alignment

Design team scaling & mentorship

Service design & systems thinking

Executive stakeholder communication

PATENT

US19008933 – Co-inventor, embedded finance shopping experience (2025)

EDUCATION

B.A. Graphic Design, Digital Media – San Francisco State University

SUMMARY

Design leader with 10+ years driving product vision, roadmap strategy, and org-scaling for enterprise digital platforms at Wells Fargo. Translates ambiguous, zero-to-one problems into funded roadmaps — evidenced by a filed patent, a 400% lift in self-serve activation, and a North Star vision anchoring a multi-year modernization initiative.

EXPERIENCE

Senior Lead Product Designer, Executive Director

Jan 2025 - Present

Wells Fargo - Open Banking

- Led the redesign and launch of the Developer Portal's visual identity (Oct 2025) for a technical, decision-making audience, and a new self-guided integration experience that removed reliance on CLI-only workflows — improving client discoverability and reducing support friction.
- Guided delivery of a new Admin Portal, closing the enterprise-access and entitlements gap, and partnered with Technology on platform-level architecture (Pioneer, MFE) for reusable design patterns.

Product Design Manager, Associate Vice President

Apr 2022 - Dec 2024

Wells Fargo - Open Banking

- Defined and delivered a self-service onboarding strategy that reframed self-service onboarding — a 400% increase in account creations within three months, launch timelines compressed from 1+ month to under a week.
- Authored the Connectivity Solutions North Star vision, that established the vision Wells Fargo is still executing against in 2025, and co-invented a patent application for an embedded-finance shopping experience (US19008933).
- Recruited, hired, and onboarded design talent, expanding team capacity, and redesigned the team's discovery process to shorten design-to-delivery cycle time.

Product Design Lead, Associate Vice President

Dec 2020 - Apr 2022

Wells Fargo - Open Banking

- Led a vision project that reshaped the application and onboarding journey, authored core design principles adopted across the team, and tied experience strategy directly to business goals.

Senior Visual UX Designer, Associate Vice President

Apr 2016 - Dec 2020

Wells Fargo - Commercial Banking

- Modernized product interfaces, expanded the design system, and mentored a team of four designers to improve scannability, consistency, and adoption; led the team's migration from Sketch to Figma.

Early Career

- Co-founder, Embarc Design Collective — boutique agency balancing business goals and client needs.
- Senior UX Designer, Udemy — mobile design lead, shaping roadmap priorities and design standards.
- Experience Designer, Yahoo! — led the Yahoo homepage redesign and My Yahoo relaunch.
- Production Designer, Williams-Sonoma — coordinated seasonal site merchandising updates including copy and photography
